

# The 2020 10KG

Warkworth Gamefish Club's annual 10KG

COVID  
EDITION

## Fishing Tournament Report

6am Saturday 30th to text measure-in by 4pm Sunday 31st May (Queens Birthday wkend)

'Game of two halves' just doesn't get close:

3pm Sunday!!!

You know the story with the 10kg, anything less than 25knots is a bonus. Saturday it was good to be alive. Sunday was just a matter of *staying alive*.

Not even a global pandemic thrown in for good measure could prevent the 10kg from

rolling. THANK YOU to the 59 anglers that joined us for this long-running event. Seems a bit strange not having our traditional prizegiving, meal, and catch up— but the rules around gatherings changed the day before the comp!

The quality of fish was up this year. Keeping the average sized fish for food and releasing the biggies means this quality could be easier to maintain. To the results:

Mike Dixon got a 104cm too.

Mad or keen?

It's the 10kg, yeah boy!

**10kg Trophy (members only)** - Jono Ridley with his 78cm Snapper (by .006 points from Wayne Browns trevally!)

The prizepool was made up from all entrants ticket money, plus \$500 from WwGFC towards 1st place snapper.

Thanks again you awesome anglers that made the event possible, and a little more rewarding for some! Next year we'll be back with the same great format but all going well a decent hoolie afterwards.
